2. Red-flag report (excerpt)

#	Potential issue	Why it matters	Suggested check
1	Amendment 02 changes the due date and time, but the cover page of the base RFP still shows the earlier date	A response prepared from the base document may use the wrong deadline	Confirm the amended deadline with the issuing office and update internal schedules
2	Section 2.2 states a page limit, while Attachment B asks for a longer technical narrative	Conflicting instructions can cause a response to be marked non-compliant	Request clarification through the official question process, and follow the stricter limit until answered
3	A mandatory form appears in Exhibit B but is not listed in the submission checklist in §4	Easy to miss when assembling the final package	Add the form to the internal checklist and assign an owner
4	Eligibility language in §2.9 is unclear about certification timing	May affect whether a certification claim is accepted	Ask the issuing office to clarify; do not assume

3. Amendment tracking (excerpt)

Amendment	Change found	Possible impact	Action
01	Questions deadline extended by 3 days	Low: schedule only	Note new date
02	Due date moved; Exhibit B replaced with a revised form; page-limit wording in §2.2 clarified	High: wrong form version or deadline risks rejection	Use revised Exhibit B; update schedule; re-check page limit
